

Brookfield Place - Interior Signage and Wayfinding

Location Toronto, Ontario
Designer / Architect Melnyk Design
Duration Mar-2006 - Nov-2006

Scope - Soheil Mosun Limited was contracted to design and install the wayfinding signs and directories for Brookfield Place, previously known as BCE Place, a class "A" office complex in Toronto's financial district.

Highlights - These directories and signs are varied in materials and design to suit the location they are in, within the Brookfield Place office complex. Materials range from 1/4" stainless steel and tempered 1/4" glass inserts for the upright brochure holders and directories to modern molded plastics and aluminum for wayfinding signage.

Stainless steel and glass elevator directory

Floor mounted stainless steel & glass directory

Painted & silkscreened wayfinding sign

Stl st & glass brochure holder mounted on a plinth.
