

SAMBA - Elevator Cab Interiors

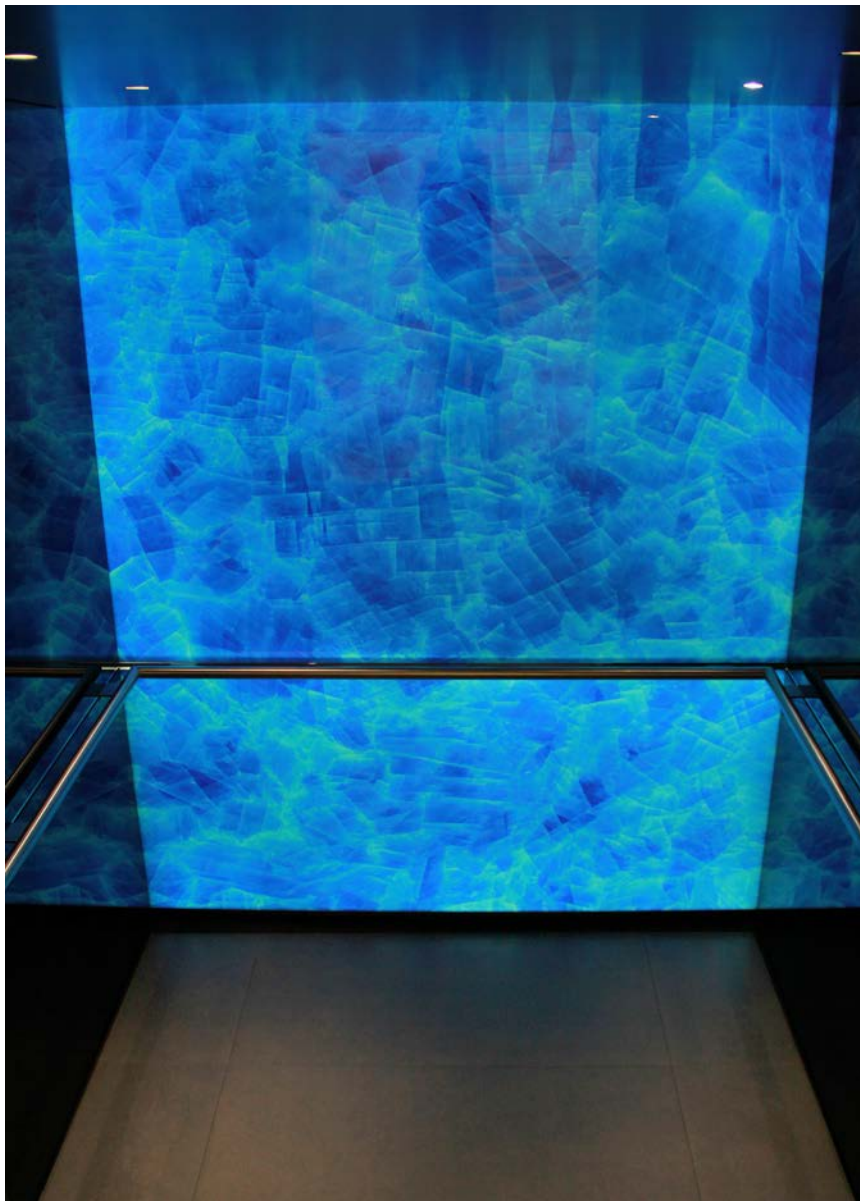

Location Riyadh, Kingdom of Saudi Arabia
Designer/Architect Foster + Partners
Duration Nov 2011 - Sept 2013

Scope - Soheil Mosun Limited was contracted to fabricate and install twenty (20) elevator cabs for the SAMBA project in Saudi Arabia.

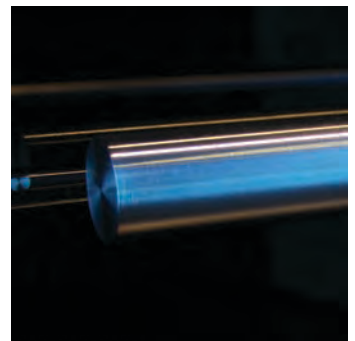

Highlights - These (20) elevator cabs feature a back lit dimmable LED photo wall which illuminates a colourized blue image of the stone used throughout the building. The side walls are laminated black colour inherent glass, mounted to honeycomb aluminum, which keeps the weight of the cab finishes low, as required by the project specifications. The hand rail is a radially brushed 38 mm stainless steel tube with mirror polished hand rail brackets. The ceiling utilizes a semi-gloss black polyester paint finish with recessed LED dimmable lighting. The flooring is 20mm thick honed black Nero Assoluto granite.
